This is one of those rare real looking and "cute" shmup games like a retro in great visuals at a animalistic insectial theme..

This is actually a SHMUP game for all ages to enjoy and have fun with for the simple thing it is. My guess is you have to be a little "shmup nerd" to find it interesting and I guess I am then :D ;)

I use a LionCast Arcade Controller / Xbox Pc controller..

Its all a matter of taste when comes to shmup "shoot Em up " games .. they can all have their charm ...

I can recommend it for the originality and cuteness ..

Well Done :-). This game crashed on me which had more to do with my computer then the game. A game that makes you think everything is fine until it isn't. Puzzle's to solve, but I was too scared to look around to solve them.

<https://youtu.be/RF58EtPgZsk>. It was a good concept until you see the flaws. No auto trader option makes me have to do

work. I don't appreciate work or that fact that I have to perform it. I also have a problem with the time speeding up thing. If you don't go to church and take a bath every day, then you get♥♥♥♥♥♥♥♥♥♥ by the locals. When you speed up the game by 1 month a second, it will destroy you.. This is a short puzzle game with a really nice art style and I love the soundtrack!

I could work out most of the puzzles, only one or two were a bit obtuse. Likable main protag, the range of characters were entertaining.

Would recommend if you like point and click puzzles, or 70s spy genre, fun writing in a game. Do it for the zombies.

I literally only play this game for the zombies, I play almost only on community created maps and they are just great. I want to buy the DLC zombie maps but \$50 is too hefty of a price for I think only 4 or 5 maps. There is a new map pack coming for just zombies which I do plan on getting but that is so I do not have to keep playing the old maps on my PS3 and so I can do split screen on them. Yes I still play split screen zombies and it's great when your friend doesn't have a PC because some people just don't get it and he's one of them lol.

Anyway I recommend this game for the zombies, if you can find a deal elsewhere or if the game is on sale I really recommend it.. Short but fun little game.

It is what it is, a very simple addictive and totally hilarious side shooter, yes there are free flash games similar to this and yes it's a bit pricey But maybe wait until the sales start.. game often lags hard with the graphs it crashies sometimes better of buying a bus simulator game from OMSIs system yes price is high but at less the game is better.. For the low price, this game more than enough.. great pole and reel for walleye to!

great game for people who are fisherman irl(like me)

totally recament to people who like trout fishing irl. I've seen a few reviews claiming the difficulty is rough, but I find that it's much, much easier and more forgiving than other space shooters. I can barely beat a single stage of Gradius, but here I find myself steadily going through them, though not without deaths, because they are still challenging. It's balanced much more fairly than all the other scrolling shmups I've played, touching the floor isn't an instant death, and there is no lives system, only checkpoints. If you've ever played a scrolling shooter in your life you'll probably do just fine here. The weapon system works wonderfully and the shield is an interesting mechanic that allows you to tank a few hits if you've got it facing the right direction, a nice break from dying in one hit with no exceptions. Easy to learn but difficult to master very much applies to this game.. Certainly worth it for the laughs, had a lot of fun with it. Hope to see more small things like this in future.
